Nederlandse Overheid Referentie Architectuur of NORA is een beschrijving van uitgangspunten voor het inrichten van de informatiehuishouding van de Nederlandse overheid.NORA is relevant voor de uitvoering van alle publieke taken door publieke en private organisaties.

Nederlandse Overheid Referentie Architectuur - Wikipedia

Enterprise Architect 14.0 is a collaborative modeling, design and management platform based on UML 2.5 and related standards. Agile, intuitive and extensible with fully integrated, powerful domain specific high-end features at a fraction of the cost of many competitors.

Enterprise Architect's Recent Feature List

Enterprise architecture (EA) is "a well-defined practice for conducting enterprise analysis, design, planning, and implementation, using a comprehensive approach at all times, for the successful development and execution of strategy. Enterprise architecture applies architecture principles and practices to guide organizations through the business, information, process, and technology changes ...

Enterprise architecture - Wikipedia

The Zachman Framework is an enterprise ontology and is a fundamental structure for Enterprise Architecture which provides a formal and structured way of viewing and defining an enterprise. The ontology is a two dimensional classification schema that reflects the intersection between two historical classifications. The first are primitive interrogatives: What, How, When, Who, Where, and Why.

Zachman Framework - Wikipedia

1.1 Purpose of the Web Service Architecture. Web services provide a standard means of interoperating between different software applications, running on a variety of platforms and/or frameworks.
