Introduction. As a C++ learner myself I have stumbled across this very compacted (yet effective) self-study book Accelerated C++: Practical Programming by Example (C++ in Depth Series) written by Andrew Koenig. For learning sake I've decided to have a go at the end-of-chapter exercises and summarise my own solutions in this page.

the author expects the book to be used, not just read once and disposed of. As presented, it simply will not last. For the \$35 price requested (which is not inexpensive) one would expect a package meant to be used. AW "blew" it. It is ugly, uncomfortable and inconvenient-just reading it once, it is falling apart. A pity, the author, if not the reader, deserved more.
