Sociology is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. Many sociologists aim to conduct research that may be applied directly to ...

2. Samuel A. Poole North Carolina Conviction: 1973, Charges Dismissed: 1974 After being convicted of first degree burglary and given a mandatory death sentence, Poole had his conviction overturned by the N.C. Supreme Court because the case lacked substantial evidence that Poole was the person who broke into the home.

In the social sciences there is a standing debate over the primacy of structure or agency in shaping human behaviour. Structure is the recurrent patterned arrangements which influence or limit the choices and opportunities available. Agency is the capacity of individuals to act independently and to make their own free choices. The structure versus agency debate may be understood as an issue of ...

Características. Estas corrientes tienen como características diferenciadoras la defensa de un monismo metodológico (teoría que afirma que hay un solo método aplicable en todas las ciencias). La explicación científica ha de tener la misma forma en cualquier ciencia si se aspira a ser ciencia, específicamente el método de estudio de las ciencias físico-naturales.
