

astronomical equipment for amateurs pdf

Baader Solar Filters are available in 3 types; ASTF - AstroSolar Telescope Filter, ASSF - AstroSolar Spotter Filter, and ASBF - AstroSolar Binocular Filter. With a total 21 sizes, there is a Baader Solar Filter available to fit practically every Telescope, Spotting Scope and Binocular. For a complete listing of the BSF filters and their clamping range, click on the left image below (308kb pdf).

Solar Observation - Alpine Astro

Ancient times. In early times, astronomy only comprised the observation and predictions of the motions of objects visible to the naked eye. In some locations, early cultures assembled massive artifacts that possibly had some astronomical purpose.

Welcome to Alpine Astronomical, where you will find a growing selection of truly unique high-quality astronomical equipment and accessories.

Alpine Astro

Astrophotography is a specialized type of photography for recording photos of astronomical objects, celestial events, and areas of the night sky. The first photograph of an astronomical object (the Moon) was taken in 1840, but it was not until the late 19th century that advances in technology allowed for detailed stellar photography. Besides being able to record the details of extended objects ...

[Not the most interesting topic in the world, but Iâ€™m posting it so I have something to link to next time I see this argument] I talk about superintelligence a lot, usually in the context of AI or genetically engineered humans.

Things That Are Not Superintelligences | Slate Star Codex

Satellites are often visible passing over, including the largest satellite in orbit, the huge International Space Station. However, these satellites are unexciting compared to one very old dark satelliteâ€”the mysterious Black Knight.
