barriers both to the law's ability to effectively shape behavior, and to its expressive function. People who do not know the law are unlikely to be deterred by it; and in many cases, what people believe the law to be may be a purer expression of what they believe the law to express than anything measured by actual legal rules alone.

The Belief-Desire Law Christopher Gauker 1 Introduction For a variety of reasons, philosophers have wanted to believe that there is a body of psychological laws governing intentional states such as beliefs and desires. One reason is that they think we rely on such laws when we explain people's behavior in terms of beliefs and desires.
