The Body is a novella by American writer Stephen King, originally published in his 1982 collection Different Seasons and adapted into the 1986 film Stand by Me. Some changes were made to the plot of the film, including changing the setting year from 1960 to 1959 and the location of Castle Rock from Maine to Oregon.. The story takes place during the summer of 1960 in the fictional town of Castle ...

Insulin and glucagon are potent regulators of glucose metabolism. For decades, we have viewed diabetes from a bi-hormonal perspective of glucose regulation. This perspective is incomplete and inadequate in explaining some of the difficulties that patients and practitioners face when attempting to tightly control blood glucose concentrations.

In 2012, the American Diabetes Association (ADA) and the European Association for the Study of Diabetes (EASD) published a position statement on the management of hyperglycemia in patients with type 2 diabetes (1,2). This was needed because of an increasing array of antihyperglycemic drugs and growing uncertainty regarding their proper selection and sequence.
