– OECD PISA 2012 is the programme's 5th survey. It assessed the competencies of 15-year-olds in reading, mathematics and science (with a focus on mathematics) in 65 countries and economies. In 44 of those countries and economies about 85 000 students also took part in an optional assessment of creative problem solving; and in 18 countries and economies, students were assessed in financial literacy.

Mentoring - Key Competency for Program and Project

Learning theories are conceptual frameworks that describe how students absorb, process, and retain knowledge during learning. Cognitive, emotional, and environmental influences, as well as prior experience, all play a part in how understanding, or a world view, is acquired or changed and knowledge and skills retained.
