Drug development is the process of bringing a new pharmaceutical drug to the market once a lead compound has been identified through the process of drug discovery. It includes pre-clinical research on microorganisms and animals, filing for regulatory status, such as via the United States Food and Drug Administration for an investigational new drug to initiate clinical trials on humans, and may ...

The medical school recommendation letter is a document that is written in support of a particular student's application for enrollment in medical school. The people recommending the candidate will ideally describe them as being well-suited to having a career as a healthcare provider. Medicine is an incredibly competitive field, so beyond the candidate's academic record, letters of ...
