Color Lines: Image Specii-c Color Representation. Ido Omer and Michael Werman School of computer science and engineering The Hebrew University of Jerusalem

Color Lines: Image Specii-c Color Representation.

Demosaicking is the process of reconstructing a full-resolution color image from the sampled data acquired by a digital camera that apply a color filter array to a single sensor. This paper discusses the need of a color filter array and presents a survey of several techniques proposed to demosaicking.
