

### **composition for computer musicians pdf**

Electronic music is music that employs electronic musical instruments, digital instruments and circuitry-based music technology. In general, a distinction can be made between sound produced using electromechanical means (electroacoustic music), and that produced using electronics only. Electromechanical instruments include mechanical elements, such as strings, hammers, and so on, and electric ...

It can all be summed up with one word: nihilism. As a boy of 19 I was such but now, though as a convinced Christian and history buff I have the cultural and religious equipment to actually compose again after not writing a note since I failed my composition honours degree over 35 years ago, the damage is done.
