295 Industrial development and economic growth: Implications for poverty reduction and income inequality Matleena Kniivilä* 1. Introduction The share of poor people in the global population has declined during recent

Industrial development and economic growth: Implications

The economic development in India followed socialist-inspired politicians for most of its independent history, including state-ownership of many sectors; India's per capita income increased at only around 1% annualised rate in the three decades after its independence. Since the mid-1980s, India has slowly opened up its markets through economic liberalisation.

1. Introduction. Agriculture's role in the process of economic growth has framed a central question in development economics for several decades (e.g., Johnston and Mellor, 1961, Schultz, 1968). While arguments differ regarding the specific mechanisms through which agricultural productivity increases might contribute to structural change in the economy, it has long been theorized that advances ...
