Tribulus is a genus of plants found in many warm regions. The best-known member is *T. terrestris* (puncture vine), a widespread weed and also the source of a dietary supplement. *T. terrestris* has been said to raise natural testosterone levels if taken as a supplement. There have been no studies that show a direct correlation between the use of tribulus and an increase in natural testosterone.

Collagen / ˈkɒləˈdʒɪn / is the main structural protein in the extracellular space in the various connective tissues in animal bodies. As the main component of connective tissue, it is the most abundant protein in mammals, making 25% to 35% of the whole-body protein content. Collagen consists of amino acids wound together to form triple-helices to form of elongated fibrils.
