Underwater diving, as a human activity, is the practice of descending below the water's surface to interact with the environment. Immersion in water and exposure to high ambient pressure have physiological effects that limit the depths and duration possible in ambient pressure diving. Humans are not physiologically and anatomically well adapted to the environmental conditions of diving, and ...

Ricketts v. AG " immigration " dismissal " Jordan. On Monday, the Third Circuit held that, when a deportation proceeding is transferred out-of-circuit to determine whether the person the government is trying to deport actually is a U.S. citizen, an appeal from that determination must go to the circuit court where the case was transferred to, not the circuit court where the case originated.
