SchoolStat is a program created to conduct periodic, non-technical, visual inspections of all school facilities. Other programs in the New York City Department of Education exist to provide detailed technical information regarding school facilities, however there was an unmet need for non-technical information, i.e., how the results of our facility maintenance and operations efforts appear to ...

The Division of School Facilities (DSF) is primarily responsible for the maintenance, repair, and the safe, efficient operation of all facilities under the jurisdiction of the The City of New York's school system. Currently, there are over 1,300 buildings that make up the Department of Education infrastructure. We provide expertise in every aspect of building management and maintenance.

Division of School Facilities - ABOUT DSF

The environmental impact of paper is significant, which has led to changes in industry and behaviour at both business and personal levels. With the use of modern technology such as the printing press and the highly

mechanized harvesting of wood, disposable paper became a relatively cheap commodity, which led to a high level of consumption and waste. The rise in global environmental issues such ...

The Schools That Teach tour was created by Governor Tom Wolf to celebrate the incredible teaching and learning taking place in Pennsylvania classrooms every day.

Pennsylvania Department of Education

A large fraction of the waste stream is comprised of organic residuals that can be turned from a waste into a useful soil amendment through composting. CWMI addresses a broad range of residuals including manure, yard and food wastes, and mortalities and a wide array of audiences including households, schools, farms, municipalities and private entities.
