DEPARTMENT OF BUSINESS MANAGEMENT OSMANIA UNIVERSITY

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible

interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

We're hearing a lot recently about fake news, and with the debates from different sides of the political spectrum so polarised, it can be difficult to even know what's real. So let's take a break for a moment and talk about the theory of something we all agree is made up: Money.

Tripling down on financial illiteracy with Amy Adams (and

The gold prices used in this table and chart are supplied by BullionDesk. Where the gold price is presented in currencies other than the US dollar, it is converted into the local currency unit using the foreign exchange rate at the time (or as close to as possible).
