General Science: Content Knowledge - ETS Home

[First published April 2005] We all know someone who's intelligent, but who occasionally defends obviously bad ideas. Why does this happen? How can smart people take up positions that defy any reasonable logic?

Why Smart People Defend Bad Ideas | Scott Berkun

The performance of humans across a range of different kinds of cognitive tasks has been encapsulated as a common statistical factor called g or general intelligence factor. What intelligence actually is, is unclear and hotly debated, yet there is a reproducible association of g with performance outcomes, such as income and academic achievement.

Evidence for a Collective Intelligence Factor in the

Inquiry-based learning (also enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios"rather than simply presenting established facts or portraying a smooth path to knowledge. The process is often assisted by a facilitator. Inquirers will identify and research issues and questions to develop their knowledge or solutions.

Most Americans see privacy issues in commercial settings as contingent and context-dependent. A new Pew Research Center study based on a survey of 461 U.S. adults and nine online focus groups of 80 people finds that there are a variety of circumstances under which many Americans would share personal information or

permit surveillance in return for getting something of perceived value.
