The best tool to convert English text to phonetic transcription: British and American English + high-frequency words are highlighted + built-in dictionary.

**Phonetic Transcription of English Words. IPA Translator.**

The International Phonetic Alphabet (IPA) is an alphabetic system of phonetic notation based primarily on the Latin alphabet. It was devised by the International Phonetic Association in the late 19th century as a standardized representation of the sounds of spoken language. The IPA is used by lexicographers, foreign language students and teachers, linguists, speech-language pathologists ...

Transcription into Chinese is the use of traditional or simplified characters to transcribe phonetically the sound of terms and names foreign to the Chinese language. Transcription is distinct from translation into Chinese whereby the meaning of a foreign word is communicated in Chinese. Since, in both mainland China and Taiwan, Hanyu Pinyin is now used to transcribe Chinese into a modified ...
