Phonetics and Phonology Humans have a complex system of using sounds to produce language. The study of linguistic sounds is called Phonetics. Phonology is the study of systems of sounds, often the sound system of a particular language.

### **Phonetics and Phonology - California State University**

Phonology and Phonetics are two different fields in the science of linguistics that study how people make sounds and pronounce words. Phonology (and phonetics) should be interesting because knowing how the French make their sounds could help French language learners across the globe achieve a pronunciation "non-marquÃ©", that perfect pronunciation.
