

### **fundamental economic concepts review pdf**

Economics (/ ɛˈkɒnəmɪks, ɪˈkɒnəm-/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Human rights are moral principles or norms that describe certain standards of human behaviour and are regularly protected as natural and legal rights in municipal and international law. They are commonly understood as inalienable, fundamental rights "to which a person is inherently entitled simply because she or he is a human being" and which are "inherent in all human beings", regardless of ...

Over the past century Western industrialized nations have attempted to reorganize the rest of the planet to live by their understanding of the natural and social world. In many ways they have been very successful in this endeavor. Over the period a world economic system has emerged with which communities must increasingly interact.
