Hot rolled and cold rolled medium manganese steel: Mechanical properties and microstructure

### **Hot rolled and cold rolled medium manganese steel**

Cold-formed steel members have been used in buildings, bridges, storage racks, grain bins, car bodies, railway coaches, highway products, transmission towers, transmission poles, drainage facilities, firearms, various types of equipment and others. These types of sections are cold-formed from steel sheet, strip, plate, or flat bar in roll forming machines, by press brake (machine press) or ...
