household incomes of students in the public schools. In Louisiana, for example, the average household income for public school students is \$56,428, compared to \$113,773 for private school students. While the primary focus of the report is on education, the broad array of non-education federal poverty programs is

briefly described.

Poverty and Education: Finding the Way Forward

education spending across school districts.⁹ Serrano I in 1971 and subsequent cases led to a requirement of equal spending per student in California. More recent cases have been driven by concerns over the adequacy of funding for public education, in particular the funding of education for students from disadvantaged backgrounds.

The Great Recession and Public Education

Education also plays a key role in the reduction of crime, improved public health, and greater political and civic engagement. Investment in public education results in billions of dollars of social and economic benefits for society at large. In Pennsylvania, local communities invest significantly different amounts in their public schools.

Pennsylvania's Investment: The Social and Economic

Economic Returns to Investment in Education affect growth, but estimates by others do not confirm this result. Using an aggregated production function, Benhabib and Spiegel (1994) and Pritchett (1996) also measure the impact of human capital investment on the rate of economic growth. They use various measurements of human
