ABSTRACTUntil the late 1980s, the former South Korean tobacco monopoly KT&G was focused on the protected domestic market. The opening of the market to foreign competition, under pressure from the U.S. Trade Representative, led to a steady erosion of market share over the next 10 years. Drawing on company documents and industry sources, this paper examines the adaptation of KT&G to the ...

The genetic modification of animals to obtain transgenic animals started in 1980. The first transgenic animals were mice, which are still the most frequently used transgenic species. About 20 transgenic species have been obtained and they are more or less currently used. Various methods are being implemented to transfer foreign genes to the different species.

Impacts of genetically modified animals on the ecosystem
