Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective Information Systems are composed by four components: technology, process, people and organizational structure.. A computer information system is a system that a branch of Science composed of people and computers that ...

Information system - Wikipedia

A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.
