8 SUSTAINABILITY REPORTING One manifestation of change in corporate reporting is the growth of sustainability reporting. There is no standard, universally agreed definition of the term

Mapping the sustainability reporting landscape

Common approaches to mapping green infrastructure in urbanised landscapes invariably focus on measures of land use or land cover and associated functional or physical traits. However, such one-dimensional perspectives do not accurately capture the character and complexity of the landscapes in which urban inhabitants live. The new approach presented in this paper demonstrates how open-source ...

To successfully communicate the characteristics of an information space, I needed an approach for creating easily understood diagrams. To be useful to my audience, the diagrams must communicate the big picture of the website to stakeholders, while providing enough detail to be useful for the development team.

Climate-smart agriculture (CSA) goes beyond new technologies and practices like drought resistant varieties or precision farming. To achieve the multiple objectives of productivity and food security, enhanced farmer resilience and reduced greenhouse gas emissions, CSA must adopt various systems perspectives. These include landscapes and ecosystems, as well as value chains.
