Marine mammals are aquatic mammals that rely on the ocean and other marine ecosystems for their existence. They include animals such as seals, whales, manatees, sea otters and polar bears. They do not represent a distinct taxon or systematic grouping, but rather have a polyphyletic relation due to convergent evolution, as in they do not have an immediate common ancestor.

People sleep peaceably in their beds at night only because rough men stand ready to do violence on their behalf. --- George Orwell. I am therefore of the opinion that when a democratic people engages in a war after a long peace, it incurs much more risk of defeat than any other nation; but it ought not easily to be cast down by its reverses, for the chances of success for such an army are ...
