Is This for Me? Yes, if you want to be involved in delivering the right systems – the ones that get used. Your title is probably business analyst, systems analyst, product owner, project leader or manager, requirements engineer, consultant, product or program manager or similar. Team members on agile projects benefit from understanding how requirements are best done in agile projects.

The user requirement(s) document (URD) or user requirement(s) specification (URS) is a document usually used in software engineering that specifies what the user expects the software to be able to do.. Once the required information is completely gathered it is documented in a URD, which is meant to spell out exactly what the software must do and becomes part of the contractual agreement.
