In mathematics, and more specifically in graph theory, a graph is a structure amounting to a set of objects in which some pairs of the objects are in some sense "related". The objects correspond to mathematical abstractions called vertices (also called nodes or points) and each of the related pairs of vertices is called an edge (also called an arc or line).

Reportlab is great if you're generating very dynamic PDFs and need to programmatically control all of it: data and layout. To just fill out forms in existing PDFs, reportlab is overkill and you'll basically have to rebuild the PDF from scratch in reportlab instead of just taking a PDF with a form that's already been made.
