

mips risc architecture pdf

MIPS I. The first version of the MIPS architecture was designed by MIPS Computer Systems for its R2000 microprocessor, the first MIPS implementation. Both MIPS and the R2000 were introduced together in 1985. [citation needed] When MIPS II was introduced, MIPS was renamed MIPS I to distinguish it from the new version.: 32 MIPS is a load/store architecture (also known as a register-register ...

MIPS architecture - Wikipedia

A reduced instruction set computer, or RISC (/ r É a s k /), is one whose instruction set architecture (ISA) allows it to have fewer cycles per instruction (CPI) than a complex instruction set computer (CISC). Various suggestions have been made regarding a precise definition of RISC, but the general concept is that such a computer has a small set of simple and general instructions, rather than ...
