Surface runoff (also known as overland flow) is the flow of water that occurs when excess stormwater, meltwater, or other sources flows over the Earth's surface. This might occur because soil is saturated to full capacity, because rain arrives more quickly than soil can absorb it, or because impervious areas (roofs and pavement) send their runoff to surrounding soil that cannot absorb all of it.

A statistical model is a mathematical model that embodies a set of statistical assumptions concerning the generation of some sample data and similar data from a larger population. A statistical model represents, often in considerably idealized form, the data-generating process. The assumptions embodied by a statistical model describe a set of probability distributions, some of which are assumed ...

Systems Simulation: The Shortest Route to Applications. This site features information about discrete event system modeling and simulation. It includes discussions on descriptive simulation modeling, programming commands, techniques for sensitivity estimation, optimization and goal-seeking by simulation, and what-if analysis.

where $0 \leq N_c(t) \leq N(0)$. In the above equation, the constants s and s_0 are the growth rate and natural death rate coefficients of the coastal population. The constant s_1 is the migration rate coefficient of the coastal population due to sea level rise. Further, it is assumed that the coastal population increases at a rate proportional to the total population.

If you have a Kindle 3 (the one with the 6" screen) chances are that you love it, as I do. Except that reading most PDF ebooks and documents on Kindle 3 is rather annoying and can be downright impossible, with unreadable, miniscule text and lots of wasted white space in the margins.

Although portfolio management didn't change much during the 40 years after the seminal works of Markowitz and Sharpe, the development of risk budgeting techniques marked an important milestone in the deepening of the relationship between risk and asset management.
