

parkinson s disease and pdf

The Parkinsonâ€™s Foundation makes life better for people with Parkinsonâ€™s disease by improving care and advancing research toward a cure.

Parkinson's Foundation: Better Lives. Together.

Parkinson's disease (PD) is a type of movement disorder. It happens when nerve cells in the brain don't produce enough of a brain chemical called dopamine. Sometimes it is genetic, but most cases do not seem to run in families.

Parkinson's Disease | PD | MedlinePlus

Parkinson's disease (PD) is a long-term degenerative disorder of the central nervous system that mainly affects the motor system. The symptoms generally come on slowly over time. Early in the disease, the most obvious are shaking, rigidity, slowness of movement, and difficulty with walking. Thinking and behavioral problems may also occur. Dementia becomes common in the advanced stages of the ...
