The concept of dementia caused by cerebrovascular pathology has evolved considerably over the years (). For many decades vascular dementia was attributed to sclerosis of cerebral arteries leading to diffuse ischemic injury and brain atrophy (Jellinger, 2006). The first significant departure from this concept, inspired by the work of Tomlinson and colleagues (Tomlinson et al., 1970), was proposed ...

In an infectious disease, the incubation period is the time between infection and the appearance of symptoms. The latency period is the time between infection and the ability of the disease to spread to another person, which may precede, follow, or be simultaneous with the appearance of symptoms. Some viruses also exhibit a dormant phase, called viral latency, in which the virus hides in the ...
