A comprehensive radio campaign had no detectable effect on child mortality. Substantial decreases in child mortality were observed in both groups over the intervention period, reducing our ability to detect an effect. This, nevertheless, represents the first randomised controlled trial to show that mass media alone can change health-seeking behaviours.

This is a well-made attractive reproduction medallion that, once primed and painted, should be indistinguishable from a plaster original. Unfortunately, once it arrived we realized that it's too large for the hallway where we wanted to use it and it wouldn't look right [we didn't realize just how big an extra 3" over the size of our badly damaged original would look].
