A detailed lesson plan and presentation covering the ideas of changes of state and internal energy. It takes the students through the concepts of the different changes of state:

GCSE Physics - Changes of state and Internal energy lesson

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...
