

pediatric audiology diagnosis technology pdf

Audiology (from Latin *audire*, "to hear"; and from Greek *αἰσθησιλογία*, -logia) is a branch of science that studies hearing, balance, and related disorders. Its practitioners, who treat those with hearing loss and proactively prevent related damage, are audiologists. Employing various testing strategies (e.g. hearing tests, otoacoustic emission measurements, videonystagmography, and ...

Introduction. The diagnosis of cancer in children and adolescents is a life-altering event for them as well as their families. Although advances in treatment have increased the overall 5-year survival rate for childhood cancers to approximately 80%, cancer is still the second leading cause of death (following accidents) in children aged 5 to 14 years. 1, 2 Depending on the type of cancer ...
