

## **process engine jbpm open pdf**

jBPM (Java Business Process Model) is an open-source workflow engine written in Java that can execute business processes described in BPMN 2.0 (or its own process definition language jPDL in earlier versions). jBPM is a toolkit for building business applications to help automate business processes and decisions. It's sponsored by Red Hat, part of the JBoss community and closely related to the ...

Red Hat ® does a lot of work with the greater open source community on middleware technologies. Our engineers help improve features, reliability, and security to make sure your middleware performs well while remaining stable and more secure.. As with all open source projects, Red Hat contributes code and improvements back to the upstream codebaseâ€”sharing advancements along the way.
