

religious discourse social cohesion pdf

Religion may be defined as a cultural system of designated behaviors and practices, worldviews, texts, sanctified places, prophecies, ethics, or organizations, that relates humanity to supernatural, transcendental, or spiritual elements. However, there is no scholarly consensus over what precisely constitutes a religion. Different religions may or may not contain various elements ranging from ...

In the Marxist economic base and superstructure model of society, base denotes the relations of production and modes of production, and superstructure denotes the dominant ideology (religious, legal, political systems). The economic base of production determines the political superstructure of a society. Ruling class-interests determine the superstructure and the nature of the justifying ...
