Levels of prevention. Preventive healthcare strategies are described as taking place at the primal, primary, secondary, and tertiary prevention levels.

Preventive healthcare - Wikipedia

Attachment theory is a psychological model attempting to describe the dynamics of long-term and short-term interpersonal relationships between humans. "Attachment theory is not formulated as a general theory of relationships; it addresses only a specific facet": how human beings respond within relationships when hurt, separated from loved ones, or perceiving a threat.

Part One. Part Two Part Three Weâ€™ve looked at media reports on SCARLET FEVER in the UK, the use of the nasal influenza vaccine in those locations, and research that shows there are biological mechanisms that could connect the two. What may need to happen is laboratory research to look specifically at these connections in an honest and scientific manner.
