In developing countries like Ethiopia rural-urban migration affects development in both urban and rural areas. As such, this study aims at establishing the major causes and consequences of the movement of people from rural to urban areas. To achieve the objective 500 migrant household heads were selected randomly from three kebeles of the town.

The rural out-migration of household members can alleviate the constraints on productivity posed by land scarcity. ( Dorosh, Getnet and et.al ,2011) The study is mainly concerned with the causes, and consequences of rural urban migration.

## **The Cause and Consequences of Rural Urban Migration**

with the fastest rate of urbanization [3]. The main source of this rapid urban growth is the rural-urban exodus. The influx of rural populations into urban centers puts an added strain on basic services and facilities; in addition, the costs and requirements for formal residence and employment are often beyond the capacity of the newcomers.

## **INFORMAL SETTLEMENTS – PLANNING THEORIES AND POLICY-MAKING**

Rural flight (or rural exodus) is the migratory pattern of peoples from rural areas into urban areas. It is urbanization seen from the rural perspective. In modern times, it often occurs in a region following the industrialization of agriculture – when fewer people are needed to bring the same amount of agricultural output to market – and ...
