Reliable structures, very precise drawings. CYPECAD was brought about to carry out the analysis and design of reinforced concrete and steel structures, subject to horizontal and vertical forces, for houses, buildings and civil work projects.. Its use guarantees maximum analysis reliability and the best drawing design, including the following elements:

Welcome. Welcome to the Los Angeles Tall Buildings Structural Design Council world-wide-web home page. The Los Angeles Tall Buildings Structural Design Council formed in 1988 is a nonprofit organization whose members are those individuals who have demonstrated exceptional professional accomplishments in the structural design of tall buildings.

In the eurocode series of European standards (EN) related to construction, Eurocode 2: Design of concrete structures (abbreviated EN 1992 or, informally, EC 2) specifies technical rules for the design of concrete, reinforced concrete and prestressed concrete structures, using the limit state design philosophy. It was approved by the European Committee for Standardization (CEN) on 16 April 2004 ...

## **PRECAST CONCRETE CONSTRUCTION - World Housing Encyclopedia**

Insulating concrete form or insulated concrete form (ICF) is a system of formwork for reinforced concrete usually made with a rigid thermal insulation that stays in place as a permanent interior and exterior substrate for walls, floors, and roofs. The forms are interlocking modular units that are dry-stacked (without mortar) and filled with concrete. The units lock together somewhat like Lego ...
