From a sociological perspective, social norms are informal understandings that govern the behavior of members of a society. Social psychology recognizes smaller group units, such as a team or an office, may also endorse norms separately or in addition to cultural or societal expectations. In other words, norms are regarded as collective representations of acceptable group conduct as well as ...

Peer support services are delivered by individuals who have common life experiences with the people they are serving. People with mental and/or substance use disorders have a unique capacity to help each other based on a shared affiliation and a deep understanding of this experience. In self-help and mutual support, people offer this support, strength, and hope to their peers, which allows for ...
