Unified Soil Classification System B-1 Appendix B The Unified Soil Classification System The adoption of the principles of soil mechanics by the engineering

Appendix B The Unified Soil Classification System

Overview. Soil classification is a dynamic subject, from the structure of the system itself, to the definitions of classes, and finally in the application in the field.

Soil classification - Wikipedia

Soil biology is the study of microbial and faunal activity and ecology in soil. Soil life, soil biota, soil fauna, or edaphon is a collective term that encompasses all organisms that spend a significant portion of their life cycle within a soil profile, or at the soil-litter interface. These organisms include earthworms, nematodes, protozoa, fungi, bacteria, different arthropods, as well as ...
