The Sci-Hub project started running on 5 September 2011, created by Alexandra Elbakyan, a software developer and neurotechnology researcher from Kazakhstan. Her stated goal is to help spread knowledge by allowing more people to access otherwise paywalled content. Elbakyan claims she could not have performed research at a Kazakh university had she not similarly "pirated" articles through ...

The term "tipping point" commonly refers to a critical threshold at which a tiny perturbation can qualitatively alter the state or development of a system. Here we introduce the term "tipping element" to describe large-scale components of the Earth system that may pass a tipping point. We critically evaluate potential policy-relevant tipping elements in the climate system under ...
