3 Inferior to the diaphragm on the left side of the abdominal cavity is the sac-like stomach. Locate the cardiac end of the stomach near the diaphragm where the esophagus enters the stomach. It is named the â€žcardiac endâ€Ÿ because it is the end closest

Biology 104 Human Digestive System Anatomy - Virginia

The study of plant organs is referred to as plant morphology, rather than anatomy, as in animal systems. Organs of plants can be divided into vegetative and reproductive. Vegetative plant organs are roots, stems, and leaves. The reproductive organs are variable. In flowering plants, they are represented by the flower, seed and fruit. In conifers, the organ that bears the reproductive structures ...
