csc340 Information Systems Analysis and Design page 2/12 1. [Data Flow Diagrams; 10 marks] A systems analyst collects the following information about a project she is working on for an auction

CSC340S - Information Systems Analysis and Design

systems analysis A method of describing and understanding complex interactions among large numbers of processes or components in a generalized way. The focus is on identifying the fundamental units of a system and defining how they interact rather than the internal processes of each unit. Systems analysis is the study of sets of interacting entities,â€
