Children's literature or juvenile literature includes stories, books, magazines, and poems that are enjoyed by children. Modern children's literature is classified in two different ways: genre or the intended age of the reader. Children's literature can be traced to stories and songs, part of a wider oral tradition, that adults shared with children before publishing existed.

Hi, Thanks so much for this. It's great! Just one thing, the print order is not the same as shown in your pictures- instead of the ring on the left and the honeymoon car on the right, the PDF has the pages in order

as they would be in the book, so the page with the ring on the left has the cake on the right, which does not work for printing.
