Visualization Solutions Selection Guide, (VIEW-SG001T-EN-P)

Human Centered Solutions has conducted over 200 projects and studies in Human Factors, Operations Practice, Staffing Assessment, Workplace Design, Console and Field Operations, and Human-Machine Interface (HMI) Design. Clients include process industries including refining, petrochemicals, oil & gas, pipeline operations, electric power generation, and mining.

Human-Machine Interface Design

AIS rugged control panel PCs feature high-performance Intel® Atom™ processor N455 1.66 GHz, in an industrial-grade LCD flat panel with touch screen and IP66 stainless steel front bezel that meets Federal Regulation process and control requirements in the manufacture of consumer packaged goods.

Hevi-Lift Â® G-Series Wire Rope Hoist is engineered for flexibility, reliability, safety, ease of maintenance and long life.

HEVI-LIFT G-SERIES HOIST RELIABILITY AND VALUE

SIMATIC HMI Comfort Panels are designed for implementation of demanding visualization applications on the machine-level. High performance, functionality and numerous integrated interfaces offer the greatest convenience in high-end applications.

Comfort Panels - Operator Devices - Siemens

Supervisory control and data acquisition (SCADA) is a control system architecture that uses computers, networked data communications and graphical user interfaces for high-level process supervisory management, but uses other peripheral devices such as programmable logic controllers and discrete PID controllers to interface with the process plant or machinery.

SCADA - Wikipedia

Powerful programmable controllers with incredible HMI featuresâ€”backed by the most efficient programming software you have ever used. Execute high-end projects â€” on time and within budget.
