Interior Design

Interior design is the art and science of enhancing the interior of a building to achieve a healthier and more aesthetically pleasing environment for the people using the space. An interior designer is someone who plans, researches, coordinates, and manages such projects. Interior design is a multifaceted profession that includes conceptual development, space planning, site inspections ...

Interior design - Wikipedia

Interior designing is a process that can turn interior (inside) spaces into an effective setting (environment) suitable for people's activities and functions.

Interior design - Simple English Wikipedia, the free

Interior Architecture is the design of a space inside any building or shelter type home that can be fixed. It can also be the initial design and plan for use, then later redesign to accommodate a changed purpose, or a significantly revised design for adaptive reuse of the building shell. The latter is often part of sustainable architecture practices, conserving resources through "recycling" a ...
