Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.

Events with a duration of less than about two seconds are classified as short gamma-ray bursts. These account for about 30% of gamma-ray bursts, but until 2005, no afterglow had been successfully detected from any short event and little was known about their origins. Since then, several dozen short gamma-ray burst afterglows have been detected and localized, several of which are associated ...

Occult Biography "A well-written life is almost as rare as a well-spent one. "So wrote Thomas Carlyle, the great 19th century essayist and historian. It has also been said that if one wishes to know about the life of any well-known historical personage, one should read their biographies, but never their autobiographies. This is true, for in their autobiographies, men and women whitewash ...
