3. Production Process Characterization 3.1. Introduction to Production Process Characterization 3.1.3.  
Terminology/Concepts 3.1.3.1. Distribution (Location, Spread and Shape) Distributions are characterized by  
location, spread and shape A fundamental concept in representing any of the outputs from a production  
process is that of a distribution.

### **3. Production Process Characterization**

In the technological theory of social production, the growth of output, measured in money units, is related to  
achievements in technological consumption of labour and energy. This theory is based on concepts of  
classical political economy and neo-classical economics and appears to be a generalisation of the known  
economic models, such as the neo-classical model of economic growth and input-output model.
