Martindale's Calculators On-Line Center: Chemistry Center

Welcome to CH102/116 General Chemistry. This is the second semester of a year-long course intended primarily for science majors, pre-medical students, engineering students who require a one-year course, and other interested students.

CH102 General Chemistry, Spring 2018, Boston University

Honors Chemistry is designed for students who have demonstrated strong ability in previous science courses. In this fast-paced, demanding course, the main topics--which include atomic theory, nuclear chemistry, periodicity, chemical reactions, stoichiometry, gases, solutions, reaction kinetics, equilibrium, acid-base theory, oxidation-reduction, and organic chemistry--are studied at an ...

AP Biology â€¢ bozemanscience

Analytical measurements are required in a range of applications in the chemical, biochemical and pharmaceutical industries. You learn about the introductory principles of a range of analytical techniques and instrumentation that provide qualitative and quantitative information about the composition of a sample.

Teesside University - Undergraduate study - Chemistry, BSc

To make interacting photons, the team shone a weak laser through a cloud of cold rubidium atoms. Rather than emerging from this cloud separately, the photons within the laser merged bound in groups of three.

Optical fiber is used as a medium for telecommunication and computer networking because it is flexible and can be bundled as cables. It is especially advantageous for long-distance communications, because light propagates through the fiber with little attenuation compared to electrical cables.

Each year, ICTP organizes more than 60 international conferences and workshops, along with numerous seminars and colloquiums. These activities keep the Centre at the forefront of global scientific research and enable ICTP staff scientists to offer Centre associates, fellows and conference participants a broad range of research opportunities.

Our company is commercializing miniature mass spectrometer technology first developed for the International Space Station (ISS). The 1st Detect Miniature Chemical Detector is a broadband detector capable of detecting residues and vapors from explosives, chemical warfare agents, toxic chemicals, food and beverage contamination, illicit drugs and pollution.
